

Quality + Zoetic = Success

Q5智能终端机用户手册

Q5 SMART POS

User Manual

电源键：
短按：点亮屏幕，锁定屏幕
长按：关机状态下，长按3-5秒开机；开机使用状态下，长按3-5秒，可选择关机或重启
死机或冗余状态下：长按10秒以上，自动关机重启。

扫描键：做为红外条码扫描器的快速使用按键，在合适的应用中，直接使用条码扫描器

返回键：点击跳回之前屏幕。

主屏幕键：点击可快速跳回到主屏幕布

菜单键：点击可快速查看正在运行的程序，可以选择或关闭程序或是应用

Power Button
Short Press: Turn-on Screen / Turn-off & Lock Screen
Hold Down: Hold down the power button 3-5 seconds to Power on the Q5/ Shut down or Restart the Q5
Note: If the machine hanged or no response, please hold down the power button for 10 seconds to Restart.

Scan Button
To work the 1D scanner which build-in at the rear of Q5.

Return Key
Return to previous operator interface.

Main Screen Key
Hide all windows and show the main screen.

Menu Key
Have a quick view and get list of the operating Apps. You can choose or close the Apps.

充电孔：外径3.5mm，内径1.35mm。输入12V 1.5A进行设备充电。本设备只支持此孔充电，不支持USB充电，充电状态时屏幕会有相应图标提示，如没有充电图标显示，请检查充电器是否插好到位。此孔应防止进入液体或短路，禁些插入非指定充电装置！

耳机孔：可外接音响/ 接入个人刷卡器（需应用支持）

Charge Socket
External diameter: 3.5mm,
Internal diameter: 1.35mm,
Input: 12V / 1.0A.

The Q5 supports power charge by this socket only, do not support charge by USB. When power charging, screen would show the battery charging logo. If you do not get this logo after you connect the power adapter, please check all connections carefully.
Warning: Charging by Non Specified power adapter is forbidden.

Phone Out
This socket allows you to connect an earphone or external loudspeaker.

SIM卡：支持MICRO 卡插入，网络支持3G/4G双网通。注意插入SIM时请确认设备处于关机状态下进行操作，以免造成机器设备故障及不必要的损失！

摄像头：500万像素定焦摄像头，用于扫码支付及二维码的读取。一般距离为15CM左右为最佳状态。

SIM Card Slot
Supports Micro card, 4G / 3G network.

Warning: Please shut down the Q5 before insert SIM card, otherwise the card slot would be damaged.

Camera
5,000,000 Pixel fixed focus camera. Supports mobile phone scavenging payment and 2D code scanned. 15CM is the best distance.

红外条码扫描器：此装置为特有或是可选部件，主要用于商品条码的扫描；方便快捷，货物盘点，扫商品码销售等应用。需要软件应用接入。

CCD Scanner
This device is option & is able to scan 1D barcode. This device would be very convenient for courier, store cashier & stocktaking.

打印机：本设备支持58MM的热敏打印纸，规格为：57*50（纸卷直径）单位mm
通过上方的开盖提手揭开打印机的纸仓盖，按正确的方向，放入适合规格的纸卷，并将纸拉出部分纸至切纸器外，盖好纸仓盖完成打印机装纸。

Receipt Printer
This is the 58mm high speed Thermal Receipt Printer, which supports label print. Paper diameter is 57 x 50 mm

To change paper, please open the paper cover, put in the thermal paper or thermal label, keeps a small part of paper out of the paper slot, and close the paper cover.

开机设置：
激活此设备，只需几步；依提示设置与手机设置相似

1，4G/3G设置，请在关机状态下，在机器右侧中间处，揭开橡胶保护盖，插入相应的SIM卡后，长按电源键3秒开机，进入首次开机界面按提示操作激活本设备
2，WIFI设置：进入“设置”菜单，然后开启WLAN，进入WLAN搜索界面，选定可用的WLAN热点，输入访问密码即可。

SETTINGS
The setting of Q5 is similar to our mobile phone

1.4G / 3G setting: Please shut down the machine first, open the cover at the right side, insert the Micro SIM card and close the cover. Turn on the Q5 and the O/S will recognize the SIM card directly.

2.WIFI setting: Enter the setting menu, turn on WLAN and get into the WLAN setting, choose the connection and input the password. After verification, the connection can be used.

常见故障排除：

打印机不工作：确认纸仓盖是否正确关闭，纸是否有通过压纸轮伸出到切纸器前，检查纸品规格是否为57*50的规格
如果出纸正常，打印出来的为白纸，请检查纸卷是否放反方向

扫描器无法扫码：请扫初始化设置

触摸屏点不准：请进入“设置”在“显示”菜单下选择“触摸屏”进行校准

COMMON TROUBLE SHOOTING

1.Printer not working
Please ensure the paper cover is closed well & whether the paper has been stretched out through the paper cutter.

If paper feed normally but print nothing, please check whether the paper put in the opposite directions.

2.Scanner work abnormally
Please initialize the setting by scan the initialize barcode.

3.Touch incorrectly
Enter the setting menu, choose “Display” submenu and calibrate the touch in “Touch Screen” section.

注意事项
WARNING
安全警告及建议

请将充电器交流电插头插入与标识输入相对应的交流插座中，严禁在存有任何爆炸性气体的场所使用，非专业人员不要打开本设备及相关附件及充电器，以免发生损坏或危险， 本产品在使用中可能会造成无线电干扰，请用户及时对于干扰采取切实可行的措施，请不要在医疗设备附近使用。

避免在雷雨天安装使用，否则有被雷电电击的危险；当您发现过热或烟雾，闻到异常气味的情况下，请立即断开电源。

在换纸时请注意撕纸器，避免触碰到伤手；

使用时请套上安全保护绳，防止机器失手跌落损坏。

In order to avoid damages or dangerous, Nonprofessional Personnel is not allowed to open the device, power adapter and related accessories. As this is the Wireless device, you are suggested not to use it nearby the medical devices.

When you found overheat, smoke or abnormal smell, please shut down the device immediately.

When charging paper, please pay attention to the serrated device to avoid hand scratched.

If possible, please put on a safety protection rope to prevent the machine from falling and damaged.
